

Birthday Penguin Air-filled Design

Description	Code	
41" Birthday Penguin	31019	1
5" Lime	48954	4
5" Tropical Teal	43605	5
160Q Yellow	88348	4
160Q Orange	88349	1
160Q Red	88347	3

Equipment Required
Base & Pole
Air-Inflator

How to make

Start with 5 x 5" Lime Green balloons and inflate to 4.5" and make a 5- balloons cluster, position this at the base.

Using 3 x 160Q yellow, almost fully inflate and create 5 x loops of equal size that will fit over the 5" Lime Green balloons (see picture) twist all 5 loops together to create a cluster and position these before adding the next 5-balloon cluster.

Create a 5-balloon cluster using the 5" Tropical Teal inflated to 4", position these on top of the 5" Lime Green and 160Q Loops.

Inflate 2 x Red 160Q 1 x Orange 160Q and 1 x Yellow 160Q and twist these around the pole, leave approx. 3" of the pole unwrapped to enable you to add the last 2 clusters.

If you are unsure how to twist balloons around a pole check out **SUEBOWLER** youtube channel: **SPIRAL COLUMN DECOR**

Make a 4-balloon cluster using 5" Tropical Teal inflated to 3.5" and a 4-balloon cluster using 5" Lime inflated to 4", add these to the top of the pole.

Inflate the Penguin balloon with air, secure it to a scrap of 160Q and tie it into the top cluster.. it is very secure!

Finally add a twisted bow using a Red 160Q to complete the design.
